

NHMRC Centre for Blood Transplant and Cell Therapy

Supported by Leukaemia Foundation

Prof Charles Craddock

Queen Elizabeth Hospital,
University of Birmingham

***“Strategies to improve
outcomes in patients post-
allogeneic transplant for
AML”***

The Centre for Blood Transplant and Cell Therapies (CBTCT) brings together the largest allogeneic stem cell transplant units in Australia with a focus on identifying transplant and cell therapy strategies to reduce graft versus host disease and improve patient and disease outcomes after transplant. In this webinar series, speakers will review major topics in stem cell transplantation and cell therapy, highlighting how key advances are addressing the current challenges in stem cell transplantation. The sixth webinar of the series features Professor Charles Craddock who is the Director of the Centre of the Centre for Clinical Haematology at the Queen Elizabeth Hospital and the recent president of the British Society of Blood and Marrow Transplantation. In this webinar, Professor Craddock will be highlighting the approaches to optimising outcomes for patients following allogeneic haematopoietic stem cell transplantation for acute myeloid leukaemia.

WEBINAR

Centre for Blood Transplant and Cell Therapies Webinar Series

Monday 26 July 2021
5pm (AEST)
