

Clinical Fellow: CAR T-Cell Programme  
Malaghan Institute of Medical Research  
Wellington, New Zealand  
full-time, fixed-term, 1-2 years

The Malaghan Institute of Medical Research has recently commenced an exciting phase I clinical trial of third-generation chimeric antigen receptor (CAR) T-cells for patients with relapsed and refractory non-Hodgkin lymphoma. We are looking to appoint an experienced and driven haematology or oncology registrar as our new **Clinical Research Fellow** for the trial. This will be a full-time, fixed-term, 1-2 year role depending on the right applicant.

The successful Fellow will be based at the Institute, also spending time between the Wellington Blood & Cancer Centre and the Clinical Trials Unit at CCDHB. You will work with the Clinical Director, Clinical Trials Nurse, Quality Facilitator and the GMP team to gain experience in CAR T-cell manufacture, clinical trial design and conduct, CAR T-cell toxicity management and cellular therapy quality systems. This Fellowship can be combined with a post-graduate degree qualification.

**Applicants must hold or be eligible for registration with the New Zealand Medical Council.**

Education and experience:

- Medical degree MBBS or equivalent
- Completed Royal Australasian College of Physicians (RACP) Basic Physician Training including RACP Written and Clinical Examinations
- Completed at least 2 years of Advanced Training in Clinical Haematology or Joint Laboratory and Clinical Haematology
- Experience in lymphoma treatment, stem cell transplantation, and/or in the conduct and reporting of clinical trials are desirable.

For full details and to apply, please submit your CV and Cover Letter via this link:
