“T-reg Therapeutics for HCT: GvHD and GvL”

WEBINAR

Centre for Blood Transplant and Cell Therapies Webinar Series

Thursday 17 June 2021
8am (AEST)

ALL WELCOME TO ATTEND

JOIN WEBINAR

The Centre for Blood Transplant and Cell Therapies (CBTCT) brings together the largest allogeneic stem cell transplant units in Australia with a focus on identifying transplant and cell therapy strategies to reduce graft versus host disease and improve patient and disease outcomes after transplant. In this webinar series, speakers will review major topics in stem cell transplantation and cell therapy, highlighting how key advances are addressing the current challenges in stem cell transplantation. The fifth webinar of the series features A/Prof John Koreth who is the Director of Translational Research in Stem Cell Transplantation at the Dana Faber Cancer Institute at the Harvard Medical School. In this talk, A/Prof Koreth will be outlining the role of regulatory T cells in haematopoietic stem cell transplantation and their potential as therapeutic tools.
